

Supplement GK4 Tyre Regulations 2024 race 7 Genk

All Classes

The rules regarding the collection, fitting and storage of tyres before and after the heats will be adjusted in the GK4.

These rules only apply to slick tyres (also not to rain tyres).

For race 7 Genk, Saturday 16- and Sunday 17 November, this means:

- The race tyres can still be ordered - by participants who have not yet ordered the tyres - from the GK4TYRES service truck on Friday 15 November.
- The participants will receive a voucher for the racing tyres (slick and rain).
- On Saturday- and Sunday morning (see the timetable for times) the racing tyres can be picked up at the parc-ferme, handing in the tyre voucher.
- The tyres will be scanned and marked upon collection.
- The participant may take the tyres to his/her tent for assembly.
- The tyres must be used from the qualifying heat.
- The tyres will be re-scanned prior to the qualifying heat.
- After the qualifying heat, the race tyres are dismantled by the participants in the parc-ferme and are then handed over to the person in charge of the organisation in the parc-ferme.
- The tyres are kept in the parc-ferme until the next heat.
- Upon entering the parc-ferme for the next heat, the participant can obtain these tyres back in the parc-ferme. He has to mount it in the parc-ferme before the start of the next heat.
- When entering the parc-ferme, the participant may only carry tools for mounting and dismantling the tyres.
- Tyre grease/markers/water for check airtightness are present in the parc-ferme.
- Liquids and/or aerosols are not allowed in the parc-ferme.
- The tyres may not be edited.
- If the participant wants to carry out a repair or a change to the rims during the day, he must first report to the person in charge of the organization for permission for the work. He decides whether this is allowed or not. Taking into account the timetable.
- Please follow the instructions of the employees on duty in order to achieve the best possible flow.
